**PATENT**

Attorney Docket No.: HES 2001-IP-004498

**SYSTEM FOR DISCONNECTING COILED TUBING**

**Abstract of the Disclosure**

A disconnect system for coiled tubing. A first end of the coiled tubing is disconnected from a second end of the coiled tubing by holding the coiled tubing in a stationary position at a first and a second location. The coiled tubing is then sheared at one or more locations between the first and the second location.
